

Why Take this Training?

Sadly, many of the parents of children we counsel have shared that they wished they had more support in raising their child having attachment difficulties or Reactive Attachment Disorder (RAD).

Because RAD parenting looks so different from “normal” parenting, these parents find themselves:

- Accused by family and friends of being too strict or even abusive
- Ostracized by members of the community
- Considered “bad” parents who cannot control their children
- Being told by well-meaning people what they “should be doing”
- Often alone, unsupported, and burned out

Workshop Leader

Laura Miller

LCSW, Trauma and Attachment Therapist

What Will I Learn?

Participants will learn how to support parents of children having attachment issues by learning how to become an active part of the child’s treatment team.

Each participant will learn how the nature of RAD can split families and their natural support systems, as well as what causes RAD.

Time will also be devoted to discussing promising treatment for RAD, including the importance of respite services during the intense treatment phase.

This is an interactive training, filled with hands-on learning.

Light refreshments will be provided.

Child care is NOT available during these trainings.

About ICF

The Institute for Children and Families (ICF) is a nationally renowned center for the treatment of emotional trauma, such as Post Traumatic Stress Disorder (PTSD) and Reactive Attachment Disorder (RAD), and traumatic breaks in attachment and bonding. ICF is also noted for its treatment of clients with ADHD, often without the use of medication.

ICF’s STAT™ model is a carefully woven combination of therapies including neuro-feedback (EEG Biofeedback), narrative and structured play therapies, trauma-based therapeutic bodywork, Eye Movement Desensitization and Reprocessing (EMDR), family therapy and education.

ICF has helped children and their families to dramatically improve their quality of life since 2000 and has a proven track record of significant, life-affirming success.

ICF provides a comprehensive personalized treatment program to address the needs of each child and family, focusing on attaining and maintaining positive change and growth.

Additionally, we offer personal and professional consultations in person or by telephone. To find out more, please visit us online at www.instituteforchildren.org
